The question is what *can't* it do? Form and function collide to bring you next level protection and productivity for Microsoft® Surface. From the integrated barcode scanner, Magstripe Reader, 3D cameras and multiple payment module brackets, no other case delivers the unique bolt-on productivity features or unmatched ruggedness of MobileDemand's xCase for Surface.

## PROTECTION

Engineered for extreme durability, the xCase must endure rigorous military drop testing in order to pass our rugged standards. Ingenious shock absorbing rubber corner bumpers and ridged shell along with sealed buttons and ports combine to offer ultimate protection in the most demanding environments.

## MOUNTING

Unlimited mounting solutions are made possible with the exclusive snap plate, included with each xCase. Used in conjunction with MobileDemand's patented Quick Release Snap Mount System, mounting to desks, walls, vehicles, forklifts, tripods and so much more is simply a snap!

## CONVENIENCE

Fatigue can quickly become a factor during the workday. That is why we include with every xCase and Bundle our easy carry briefcase handle and back hand strap. These accessories are designed to hold the device securely and comfortably to alleviate the strain of carrying the tablet for an extended period of time.

## PRODUCTIVITY

Scan barcodes, receive payments with a mobile point of sale module, read credit cards and gather personal information with a magstripe reader, take box measurements and more. These productivity tools are integrated into our rugged xCase and can be purchased with a stand alone xCase or in Bundles.  
(Bundles include xCase, Surface tablet and screen protector, delivered fully assembled)

Available as stand alone xCase and Bundles for select Surface Go and Pro models.
